	1	"What do you think is the best number of children for a family to stay well?" (type number)		
	2	"If both you and your spouse fall sick, who do you think is the most important person to buy treatment for?" (Me, My spouse, both equally) [Me=1, My Spouse=2, Both Equally=3, Not applicable=88]		
<p>NB: enumerator must be careful not to mention the options before the beneficiary responds, in which case he/she might be lead to answer "both equally" even if this is not the case.</p> <p>NB: in case of single-headed households the question can be asked hypothetically "if in a family both husband and wife fall sick, who do you think it is most important to buy treatment for?"</p>				

SECTION 12. I am now going to ask you about wearing sandals of you and your family members

		0= No, 1= Yes
52.	Do your ALL family members WEAR sandals?
